POWER SUPPLY

COMPANY PROFILE

BACKGROUND

Nhlayisa Nutrition Solutions (Nhlayisa is Tsonga for 'care') was established in 2007. Months of detailed research in rural Mpumalanga and Limpopo, bordering the Kruger National Park revealed severe nutritional deficiencies amongst adults and school children. With the assistance of well-known South African and Australian nutritionists, Willa Haasbroek and Dr Graeme Sait, Power Supply instant porridge was developed to address specific nutrient deficiencies among rural people living in South Africa. In twelve years Nhlayisa Nutrition Solutions has provided millions of meals to school feeding programmes as well as organisational health schemes, such as for workers at mining companies, farms and timber mills. Nhlayisa has also supplied large retail outlets such as Pick 'n Pay and Spar.

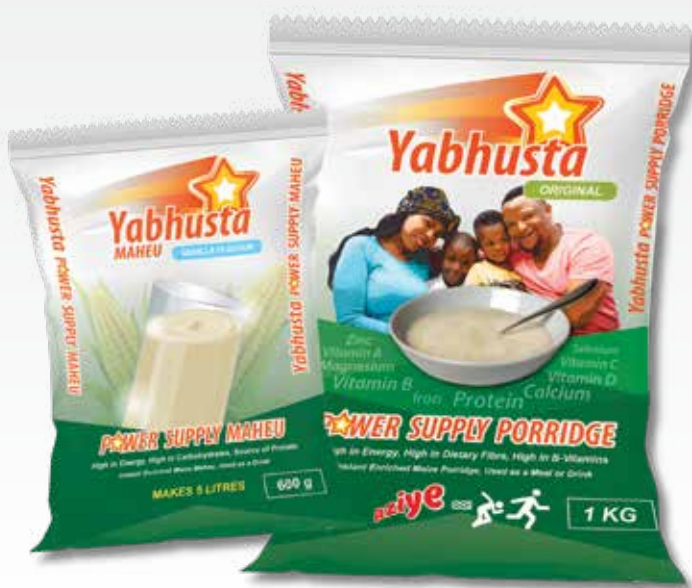

OUR MISSION

Nhlayisa Nutrition Solutions overarching mission is to give people living in Africa the opportunity to be healthy and energetic by developing high quality affordable fortified foods.

A SOCIAL ENTERPRISE

As a social enterprise, Nhlayisa seeks to establish strategic alliances with private enterprise and NGO's to distribute nutrition to less fortunate people. Examples of such partnerships include those with Good Work Foundation, Food Forward SA, Northern Hope Foundation and the Kansanshi Foundation in Zambia.

FIVE REASONS TO CHOOSE NHLAYISA

- 1** All our products taste great and **require no additional cooking.**
Our products **boost immunity levels** associated with nutrient deficiencies, **help address stunting in children,** and provide **increased energy and alertness among workers.**
- 2** Results from a feeding scheme in Zambia showed an **improvement in school children's academic performance** by more than 15% and attendance by 30%.
- 3** We can **customise products** to suit a specific function and price range.
- 4** Our manufacturing facility has the **capability to execute high volumes** for a comprehensive range of blended products at exceptional quality.

OUR PRODUCTS

All our delicious products contain a highly progressive vitamin and mineral regime that takes into account the present deficiencies in our diet. All products are available as non-GMO (genetically modified organism) and sugar free, upon request.

★ YABHUSTA POWER SUPPLY INSTANT PORRIDGE

Yabhusta is an instant smooth porridge that may be eaten with water or milk. The product is perfect for school feeding programmes and severely under-nourished people.

- Macro Nutrients: Maize, soya and sorghum
- Available in 80g, 500g, 1kg and 25kg sizes
- Highly fortified with vitamins and minerals
- High in Protein and Energy
- Free from lactose, wheat and gluten

★ YABHUSTA POWER SUPPLY INSTANT MAGEU

Yabhusta mageu (also known as amaHewu) is an instant fermented maize-based drink enriched with vitamins which compares well with the fresh equivalent.

- Available in 120g, 600g and 25kg sizes
- Fortified with vitamins
- Free from lactose, wheat and gluten
- MultiVite instant porridge

★ MULTIVITE INSTANT PORRIDGE

With its subtle nutty taste, MultiVite is an instant smooth porridge that is mixed with water. The slow release (low GI) formulation ensures sustained energy release for those working in physically and mentally demanding environments. This superior product is perfect for workers performing intense work requiring high levels of energy and concentration.

- Macro Nutrients: Maize, soya and sorghum
- Available in 80g, 500g, 1kg and 25kg and Combo-Pack** sizes
- Highly fortified with vitamins and minerals
- High in Protein, Energy and Dietary Fibre
- Low GI – slow energy release
- Contains pre-biotics, amino acids and electrolytes
- Free from cholesterol, lactose, wheat and gluten
- Made from non-GMO raw materials

** The new combo-pack contains both porridge and purified water that is specifically designed to provide an instant meal where clean water is not readily available.

SCOPE OF WORK

We can develop tailor-made products for clients to address their specific nutritional needs and budget. Our services include product development and production at our internationally accredited factory.

MANUFACTURING

Our products are produced in partnership with Kelpack Manufacturing situated in Pinetown, a leading South African contract food manufacturer and packaging services provider. Kelpack specialises in high volume, multi-unit food manufacturing adhering to the strictest food safety standards as required by our customers and the ultimate end-consumer, with extensive FMCG customer base covering Multinational and local companies.
